

DN Tanks Fall 2024 Scholarship Announcement

We are proud to announce Jamie Au has been awarded the DN Tanks Fall 2024 Scholarship! Congratulations Jamie!

Jamie's Contributions

Congratulations to Jamie Au for being awarded one of the DN Tanks scholarships for the Fall 2024 term! Jamie started work with us this summer and quickly proved to be a valuable and dependable part of the construction team. Her quality of work is at a very high level, and she is extremely detailed in her communication to her team on the tasks she is working on. It did not take long for Jamie to earn the trust of the PE's and PM's and for all to be able to depend on her to come through on any task that is thrown her way. Jamie did an outstanding job through the RFQ process for our (2) 8.0 MG tanks in San Jose, CA, which resulted in large savings on buyouts and positioned the project for success from the start. She also built out a very detailed subcontractor database that will increase the efficiency of the RFQ process for both the construction and estimating teams. Jamie brings an extremely positive attitude to work every day and gets herself involved in more than just the typical job functions. Jamie joined the El Cajon softball team in her first week, took on a lead role in the Building Community Playhouse Build, and has built strong working relationships with many people around the office. It has been an absolute pleasure to work with Jamie over the past six months and we wish her the best as she transitions into her new role in the engineering department with DN Tanks!

Presented by Mike Gonzalez

The DN Tanks Scholarship Program was established to recognize students who excel in their work at DN Tanks as either a cooperative education student or intern student. For over forty five years, these students have played an important role in the growth and prosperity of the company. Our scholarship program is intended to recognize the students who make unique contributions and exhibit DN Tanks' Core Values. Scholarships are awarded semi-annually.
