

DN Tanks Fall 2024 Scholarship Announcement

We are proud to announce Elizabeth (Libby) Westbrook has been awarded the DN Tanks Fall 2024 Scholarship! Congratulations Libby!

Libby's Contributions

Congratulations to Elizabeth (Libby) Westbrook for being awarded one of the DN Tanks Scholarships for the Fall 2024 term! This was Libby's first co-op experience and has done an outstanding job during her tenure here. Libby's positive attitude has been contagious among the team. Libby has done very well managing her workload and collaborating with design engineers to meet project design schedules. Throughout her co-op Libby has worked several unique projects including detailing the concrete launder formwork drawings on a secondary clarifier for the Hutto, TX wastewater treatment plant project. Her ability to take limited direction on the project and produce a working set of drawings was a testament to her ability to work independently and critical thinking. She also was tasked with developing a floor simulation model to check the bearing pressures below one of the projects we are developing in our funnel. She was able to do a great job with limited training and guidance. It has been an absolute pleasure to work with Libby and have her as an integral part of our team the last 6 months. We wish her the best as she heads back to Northeastern University to continue with her studies in Civil Engineering.

Presented by Josh Gregorio

The DN Tanks Scholarship Program was established to recognize students who excel in their work at DN Tanks as either a cooperative education student or intern student. For over forty five years, these students have played an important role in the growth and prosperity of the company. Our scholarship program is intended to recognize the students who make unique contributions and exhibit DN Tanks' Core Values. Scholarships are awarded semi-annually.
